1 **Agenda of the 4th Workshop of the RENet Project**

The 4th workshop of the RENet project will be hosted by the Universidad de Oriente (Santiago de Cuba) from 13th to 17th of June 2016. During the workshop the main advances of the project will be presented, and the future actions will be also discussed and defined. ESF and Cubasolar, associate members of the project, will attend the meeting, thus contributing to strengthen the synergies between partners and associates.

Together with the meetings to discuss the state of the project and the schedule for the next months, different conferences will take place. The conferences will approach the topic of “control of environmental pollution” and “Biofuels: technology, environment and society” and they will be taught by Professor Electo Silva from Universidad Federal de Itajubá (UNIFEI, Brazil).
